

WORKFLOW FOR EVERYONE EVERYWHERE

ROADSHOW SERIES MARCH 2015

Hong Kong - 17 March

Workflow for Everyone, Everywhere ROADSHOW SERIES

Spend a day with Nintex, our customers, partners, and Microsoft to learn how workflow automation can help you make the most of your time.

In today's mobile and cloud-based world, many companies are looking for ways to leverage the new technologies and integrate them with existing tools and processes. This free event will show you how the Nintex Workflow Platform extends your SharePoint investments with workflow and forms designed to be easy, adaptable and accessible from anywhere.

Thousands of customers use Nintex to build forms and workflows that automate everyday processes. This day will illustrate how we help you bring **Workflow to Everyone, Everywhere**.

See how you can:

- Use the Nintex Workflow Platform to **build forms and automate your processes** with a low code approach
- Define a roadmap to **take your forms and workflows to the cloud**
- Bring **workflow and forms to everyone** – on-premises, in the cloud, mobile and social

SESSION ABSTRACTS

YOUR PROCESSES

The Nintex Workflow Platform is designed to manage simple to sophisticated processes. Nintex enables business users, developers and IT Pros to become Workflow Pros and create complete solutions quickly. We'll show how Nintex can solve a wide range of business problems that will improve your organisational results.

YOUR CONTENT

Nintex workflows extend well beyond SharePoint documents and lists. The connectors reach line-of-business (LOB) applications, data sources, SaaS offerings, enterprise content management systems, cloud storage providers, social computing channels and more. Our on-premises and cloud offerings mean that you can work in any environment with ease. Work happens everywhere, and processes shouldn't be confined to a single application. You'll learn more about the extensibility of Nintex and the power of information access, both on premises and in the cloud.

YOUR USERS

Improve engagement from your customers and employees by creating rich experiences that improve their productivity. Reach them where they already work – in a mobile, social and cloud world.

Mobile Productivity – Be Productive, Anywhere

Presented by Eddy Chan, Business Group Lead, Microsoft Office Division, Microsoft Hong Kong

For years, companies have leveraged Microsoft solutions for their productivity needs. In an evolving cloud-first and mobile-first world, organisations can continue to trust Microsoft and its valued partners such as Nintex, to provide the richest productivity solution across virtually any device in a secure, enterprise-grade way.

Automating Business Processes through SharePoint Using Nintex Workflows & Forms

Presented by Eric Moy, Managing Director, KBQuest HK Limited

In this session, KBQuest, a Nintex partner, will highlight the use case of one of its customers, which is a leading UK retail and distribution company. This session will showcase how the customer implemented SharePoint 2013, Nintex Workflow and Nintex Forms 2013 to automate business processes for its offices around Asia. Management saw a need to implement an intranet to foster collaboration and communication, and the customer decided to use Microsoft SharePoint 2013 for its intranet solution to provide the access and version controls that it needed. Nintex technologies have helped improve employee productivity and increase visibility into the processes.

Leverage Nintex Workflow for Document Management

Presented by Kenny Mak, Consulting Director, Pactera

In this session, Pactera, a Nintex partner, will highlight the challenges that a major Hong Kong airline company faced with document management. Learn more about the implementation of Nintex Workflow for the airline company's IT document library and the advantages of adopting Nintex technology for its architecture.
